### **Details for Students with Disabilities**

Students with permanent disabilities, who require the accommodation of a reduced course load due to the impact of a documented disability, may be eligible to participate in the Program. For the purposes of this program, the definition of permanent disability is:

- A functional limitation caused by a physical or mental impairment that restricts the ability of a person to perform the daily activities necessary to participate in studies while enrolled in what the institution considers to be a full course load for the period of study in question, which impairment is expected to remain with the person for the expected duration of the person's postsecondary studies.

A student is required to identify themselves to the appropriate person at Cambrian's disabilities services office and present documentation confirming the disability and the need for a reduced course load as a learning accommodation. Such documentation must satisfy the College that it meets the following criteria:

- Medical documentation from an appropriate health care professional (e.g. a legally qualified psychiatrist/medical practitioner that indicates a permanent disability); or
- A learning disability assessment from a qualified assessor supporting the student's permanent learning disability (e.g. a registered psychologist, or psychological associate).

- Attention Deficit Disorder and/or Attention Deficit Hyperactivity Disorder (ADHD) may be diagnosed by a registered psychologist with ADD/ADHD training; a neuro-psychologist; a psychological associate; and/or a relevantly trained medical doctor.

The ADHD assessment should outline the diagnosis and the impact of the hyperactivity or the lack of attention on learning. Once approved, the approval will be forwarded to the Glenn Crombie Centre office for tracking and assessment.
